12

Thank You

The Forest Park Academic Booster Club has been supporting academic programming for over 12 years. This group of volunteers, teachers, and administrators works each year to raise funds that benefit all students at Forest Park. We have been able to provide financial assistance for the high school physics trip, the PLAN assessment, testing for A+ certification, the junior class college tour, Business Professionals of America, and the middle and high school quiz bowls. Our group has helped to fund classroom equipment such as science journals, microscopes, and educational DVD's. We support the organizing of a graduate panel, middle and high school honors programs, and an "Excellence in Education" banquet for seniors all in an effort to recognize and encourage academic achievements and mentoring.

Please consider joining us as we continue to strive to enhance the academic experience of our Forest Park students!

Middle School Honors Program

Thursday, February 23

6:30 p.m.

Multipurpose Room

Middle School Honors Program

Welcome/Introduction Speaker.....Ray Marchi
Academic Booster Club
